Time-efficient sheet handling

Grip, tilt and rotate large sheets easy and efficient with an ergonomic vacuum gripper.

With TAWI Sheet gripper it is easy to grip big and heavy sheets. This smart tool allows anyone to handle sheets up to 500 kilos with minimal effort. There is no need to be big or strong, everyone can lift, resulting in an equal and efficient business with a flexible workforce. The number of suction cups is adapted for your load so that the tool is always ideal for your lifting needs. The gripper is easily mounted in a hoist, for safe and efficient lifting.

Add a tilting function and you can easily tilt loads of up to 250 kilos, up to 180 degrees. Stacking heavy sheets has never been easier! The user-friendly control panel makes the tool easy to use, and ensures an ergonomic working position at all times. The vacuum sheet gripper is easy to integrate in daily operations and can be modified to meet specific requirements of your industry. Two-handed release function ensures safe and easy grip and release of load.

Our sheet gripper is easy to use and helps ensure an ergonomic and efficient work environment. The pneumatic gripper is reliable and safe, able to handle double loads thanks to its innovative design with a twin vacuum chamber system. Let TAWI Sheet gripper relieve employees of heavy and ungainly loads and help them optimize manual material handling, every day.
