Wire hoist for efficient and safe lifting

Whether you need to use the hoist with a hook, gripper or vacuum tool, we have a most efficient rope hoist for your needs.

TAWI Wire hoist is not only one of the world's fastest wire hoists, it is also very easy to install and requires little maintenance. Reliable equipment that offers great flexibility and easy handling of all types of loads. With a low cost of ownership and low energy consumption, our wire hoist is a most cost-efficient choice for sustainable and efficient lifting.

Ergonomic handles adaptable to your needs provide comfort, ease and smooth movement. The hoist is so easy to control, everyone will learn to use it in no time. A quick coupling enables great flexibility, allowing you to use any tool on the same hoist. Choose between a selection of hook tools, clamp tools or grippers, adaptable to meet your every need. Pick up goods from all angles, turn, tilt or rotate the load with great precision and place it safely, exactly where you need it. Variable speed control allows you to choose exactly how fast or slow to move at any point, ensuring safe and precise lifting at all times.

This flexible wire rope hoist is available in two models; one for quick lifting, handling up to 60 kilos at 0.75 m/s, and one for heavier lifting, handling up to 120 kilos at 0.35 m/s. Both models can be equipped with various tools for handling anything from reels to car parts and batteries. Efficient and ergonomic lifting for everyone, every day.
