Order picker forklift

Unique solution for mobile material handling and order-picking from pallet racks. Simply pick up the mobile unit with any kind of forklift or truck and drive wherever you need to go.

Lifting capacity: <80 kg

Compatible with any forklift or pallet jack

Height adjustment: 500 mm, electronically driven

Battery: 24 VDC 180 Ah

Battery charge time: 8 hours

User-friendly on-board control panel

Easy Reach tool provides extended reach into pallet racks

Efficient order picking or unloading

This forklift attachment will give you full mobility in material handling. Pick goods on pallet and quickly move from pallet rack to pallet rack with the lifter. Or drive the lifter into a container to unload goods.

Compatible with any type of forklift or pallet jack

Articulating arm for optimal reach

Adjustable height facilitates reach into pallet racks

Support legs for extra stability

Grip boxes from the top or from the side

Lift boxes of all sizes, up to 80 kilos
