

Multi Level Terminals
Push Fit Connection

4 mm² Double Deck PushFit Feed Through Terminal Block
For 35 mm DIN Rail

2.5 mm² Triple Level PushFit Feed Through Terminal Block
For 35 mm DIN Rail

2.5 mm² Triple Level PushFit Feed Through Terminal Block
with Protective Earth
For 35 mm DIN Rail

2.5 mm² Triple Level PushFit Feed Through Terminal Block
with Protective Earth
For 35 mm DIN Rail

Electrical Ratings
CE (EN 60947-7-1 / EN 60947-7-2)
cRUus
VDE (IEC 60947-7-1)
CSA
IECEX

Connection Data
Conductor cross section solid (min.-max.)
Conductor cross section stranded (min.-max.)
2 conductors with same cross section, stranded, TWIN ferrules with plastic sleeve, (min.-max.)
AWG Conductor
Insulation Stripping Length
Screwdriver

Technical Data
Rated Impulse Voltage
Insulation material group / Gauge pin code according to IEC 60947-1
Protection class / Protection conductor type

DON'T DROP THE BATON!

IMO's relay manufacturing goes back as far as 1972, and over the years we have strived to innovate and produce new types of relays for developing technologies. In 1984 we developed the first BT Type 47 Telecom Relay, and again in 1990 we launched the first BABT compliant isolation relay for data transfer, confirming our place as one of the leading global relay manufacturers. Today, our range of Industrial Relays include Signal Relays, Power Relays, Automotive Relays and Solar Relays, and range of compatible sockets.

IMO's range of Industrial Relays are available with either an AC or DC coil, and suitable for PCB mounting or plug-in via a dedicated socket. We also offer a range of slimline DIN Rail mountable relays which are just 6mm thick, and provide substantial space savings in a panel when compared to traditional plug-in type relays.

- Wide range for use in virtually any application
 - Relay manufacturing market leader and innovator
- VDE, UR and cUR approvals
 - Range of compatible sockets available
